

## Room Cartridge filter

### Flexible high-tech 3D spatial filter for all filter housings

Get independent of proprietary filter cartridges and experience perfect filtration. The PureFlow spatial filter offers up to 250x more filter volume than conventional filters and thus an incredibly long service life. Instead of only a thin, folded filter wall, PureFlow completely fills the entire available filter space. This means that polluted water is compulsorily channelled through the filter and cannot flow past the filter unfiltered.

#### Perfect for

- ✔ Quick-Up-Pools
- ✔ Whirlpools
- ✔ Frame pools
- ✔ Flowclear Filter

#### Expert Advice:

The PureFlow filter pad guarantees a flow, protects against deformation and extends the service life of the filter.

(Filter pad is not included in the product)

Perfect filter size = Dimension of your filter housing + 2 cm
