

Kitchen Air Filter

PureFlow DUST FILTERS are made of progressive and highly compressed high-tech microfibres. Compared to conventional filters, the PureFlow filter offers a very high air flow and reliably filters grease, foul odours, the finest dust particles and fumes from the room air.

Our filters are also available with activated carbon, as multi-layer filters, grease filters and even in a COMBI set. They fit all common cooker bonnets and can be cut to size if required. Installation is easy, quick and effortless.

Advantaghes that convince

- ✓ Efficient cleaning of the room air
- ✓ Protects walls and furniture from grease deposits
- ✓ Free of toxins, PCB, CFC, silver ions, formaldehyde
- ✓ Protects against germination, insect and mould infestation
- ✓ Flame retardant, self-extinguishing
- ✓ Extremely dimensionally stable with a high degree of separation of over 93%
- ✓ Certified according to ÖKO-TEX 100 as well as REACH for highest demands, also suitable for large kitchens and industrial filter systems
- ✓ Long service life due to high absorption capacity
- ✓ Recommended for allergy sufferers
